

Modular design, high accuracy, compact size and stable performance.

### FEATURES

- Modular design is suitable for use with output modules, sensors and remote transmitters
- Compact structure, easy to install
- Intuitive clear reading, high reliability, measuring accuracy is  $\pm 1\%$
- High-definition displays show both instantaneous and cumulative flow

### SPECIFICATIONS

**Operating Voltage:**

2.3-3.3V

**Battery Life:**

Lithium battery can supply up to 9000 hours operating life

**Thread Size:**

1" NPT

**Repetition:**

$\pm 0.5\%$

**Measuring Accuracy:**

$\pm 1\%$

**Maximum Working Pressure:**

20 bar

**Flow Range:**

0-200LPM

**Working Temperature:**

-10°C to 60°C

**Standby Time:**

1 year

**Weight:**

380g
